Sault College Cheerleading Captures Title at University & Open Championships

Kitchener, ON – For the second time in three years the Sault College Competitive Cheerleading squad headed to the Cheer Evolution University & Open Championships on Friday and came away as International Level 4 Champions. The championship equals the gold medal earned in 2012 after capturing bronze in 2013.

This year's field featured universities, colleges and open club academies (private elite cheerleading programs) for the first time in the Cheer Evolution Ontario Championships. The Cougars proved not only did they belong with these high level clubs but also with many larger universities (Toronto, McGill, Guelph to name a few).

The Cougars Cheerleading squad has quickly leapt onto the national cheerleading scene under the tutelage of Coach Caitlyn Nelson who has developed a competitive squad each year. This year's team was no different battling through adversity highlighted but gutsy performances from veterans Danielle Krumins and Chantal Gibb who despite injuries led the Cougars on the floor. The future looks bright as the Cougars look to build on this success in the upcoming seasons. All those interested in competitive cheerleading and Sault College please contact Coach Nelson in the Athletic Department at Caitlyn.nelson@saultcollege.ca.
